Session of th Day is Marked by Ardent Speculative Spirit. NEW YORK, Nov. 5.—There was a very ardent speculative spirit manifest in the ardent speculative spirit manifest in the stock market all day. It was depressed at times by the difficulty of securing accommodation in the loan market, but before the day had closed the market burst into great animation after following a relapse in the call loan rate and the activity continued up to the close, almost wholly ignoring a recovery in the money rate of about the top rate of the morning Taking of quick profits by room traders made some slight impression on prices here and there, but the last prices were senerally very near the top. The feeling in Wall street this morning was that Friday's jump in the call loan rate had been due to manipulation, that Saturday's bank statement did not truly represent the available resources of the banks and, in short, that all of the usually trustworthy indications of a pinch in the money market were misleading and artificial. It was in this spirit that speculators rushed to buy stocks at the opening. They raised orices from I to 18 points over Saturday's level in a large number of prominent stocks within a few minutes. Then began the calling of loans by some of the banks. Loans made today carry over until Wednesday and when speculators began to look about to find hew accommodations with which to carry their holdings of stock over election day they ran the call loan rate up rapidly to 25 per cent. The first loans were made at 10 per cent. One broker placed \$1,000,000 at that rate, another \$1,000,000 at that rate, another \$1,000,000 at that rate, another \$1,000,000 at the top the placed \$1,000,000 at the new market and was followed by a period of contemplations for cash and the small concessions from the ruling prices at which these were quoted. The condition in the money market was of course responsible for this, when the rates for money fell away to 10 per cent again the speculators very promptly availed themselves of the resources offered and rushed prices up to the top level of the own while the speculators wery promptly availed the money market to the development stock market all day. It was depressed at times by the difficulty of securing accommodation in the loan market, but before the

LONDON, Nov. 5.—Money is wanted in connection with the consol settlement and the payment of nearly £1,000,000 of India and other loans. Discounts are tolerably firm in view of continued weakness of New York and continental exchanges. Another call on the war loan must be met Thursday. There was no indication of increased activity on the Stock exchange today, the dominant factor being the condition of the money market. High class securitiess were duil. Home rails were depressed, partly owing to the dividend prospects. The feature was the continued selling of London & Brighton deferred and Great Eastern. The American market was one of the best, although there was a disinclination to deal, pending the elections, but a tresh advance is anticipated. Milwaukees were strengthened on increased earnings and Grand Trunks were easter. Spanish 4s railled smartly. Copper shares were in good demand, the Paris market seeming more cheerful. The Bank of England has raised the selling of American eagles to 76s 5%d. Spanish 4s, 57%, Gold premium at Buenos Ayres, 131.80. Money, 2½ per cent.

PARIS, Nov. 5.—Business on the bourse today was good throughout. The feature was the sharp recovery of Spanish securities, due to numerous re-purchases on favorable exchange and news regarding the disturbances in Spain. Portuguese were active and finished higher. Rio tintos were higher, but were not freely dealt in, operators swaiting the result of the elections in the United States. Kaffirs shared the general improvement. suit showing no special significance, as the greater portion of the trade had made its pre-election arrangements before Saturday's closing, and as the speculative public in general was averse to assuming new commitments for the present. On the first call prices cased off 250 points in sympathy with rather bearish conditions in Liverpool. The irregularity was of short duration, as the later advices indicated a decided improvement abroad in sentiment. Our market improved apace and displayed underlying firmness up to the noon hour. Light covering and some foreign buying were prompted by reports from the south that farmers were refusing to sell cotton and even at higher prices, while estimates for the week's forward movement indicated a decided tapering off from now on. Expertiters were bidding in competition with American spinners for additional supplies, but according to general account were not securing the cotton as readily as hoped for. January worked up to 2.10c before the noon hour. Then a reaction of several points occurred under estimates for large receipts tomorrow. Later fluctuations were limited to a few orders, with the trading practically at a standstill. The market closed barely steady, net 1 point higher to 2 points lower. Market conditions remain unaltered but firm. The nearness of election, coupled with the smallness of demand, has caused temporary stagnation, but there is firm belief that by the end of the week there will be a decided improvement and many deals which were in progress will be pushed to completion. No announcements of further plans, however, will be made for two or three days. The jobbing trade is without feature.

There were very light for a few days, and particularly will the common stuff be slow as a small one, with the net reference of last week.

There were tweet of in good cattle seemed to be in good shape, and as a result, what few large and packers brought them on the sound proved the receipts of carries and packers brought them on the better has been as few cattle here on months did arrive cars would cover the receipts of corn cattle and packers brought them of all kind

There were two or three cars of western beef cattle on sale and they brought good strong prices. Choice western grass cows and helfers brought a little stronger prices, but the common kinds and canners were no more than steady. Good feeders were steady to strong, and common ones slow and about steady. Representative sales:

CONGER REPORTS PROGRESS

Ministers at Pekin Working Harmoniously Toward Basis for Negotiations.

QUESTION OF PUNISHMENTS DECIDED

to Effort Has Been Made to Deal Directly with Chinese Government, but the Program Arranged Will Undoubtedly Be Accepted.

WASHINGTON, Nov. 5 .- Minister Conger's last advices to the State department indicate that satisfactory progress is being made by the ministerial corps at Pekin toward the arrangement of a basis upon which negotiations shall be had with the Chinese government for a final settlement. The ministers have passed upon the question of punishments and also upon several other Important points which are to figure in the negotiations. The results have not been made public

The Russian minister is understood to be participating actively in the discussions and the proceedings are harmonious. So far these have been confined to the effort to secure a perfect agreement by all of the ministers upon the basis of negotiation. and up to this time no effort has been made to deal directly with the Chinese government.

It is the understanding that when the ministers themselves have agreed upon their program there will be little difficulty in securing its acceptance by the Chinese government, which is indeed powerless to offer serious resistance to the united de mands of the powers.
